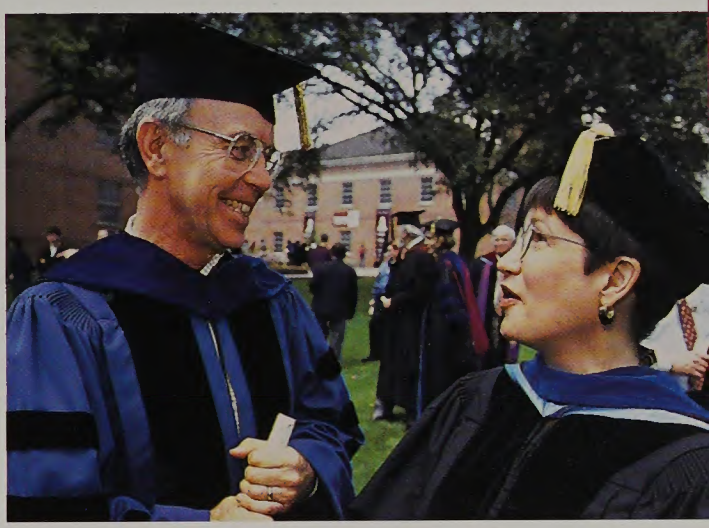
Our goal is excellence

At Centenary, we seek the best in everything we do. Our professors are outstanding, and their first call is to the classroom. Our students prepare for and expect a college experience of distinction. In all areas of campus life, excellence is the watchword.

Over 90% of Centenary faculty hold the highest degree in their disciplines, with these degrees earned from our nation's most prestigious institutions. Although teaching is our top priority, research and publication activities abound. Significantly, these activities involve undergraduates to an extent unavailable at large institutions. Centenary students have many opportunities to discover their unique talents and gifts.

"As an undergraduate at Centenary, I was shaped by the passion for knowledge that my professors lived daily. As a professor at the College, I try to pass on to my students that same commitment to learning and the joys of the life of the mind."

—Dr. Jefferson Hendricks '75 (pictured on left page), Brown Choir of English and Co-coordinator of the Film-Television-Video Program



"The professors are the heart and soul of this institution. They are available any time they are not teaching another class."

—A junior quoted in The Princeton Review's The Best 331 Colleges, 2000

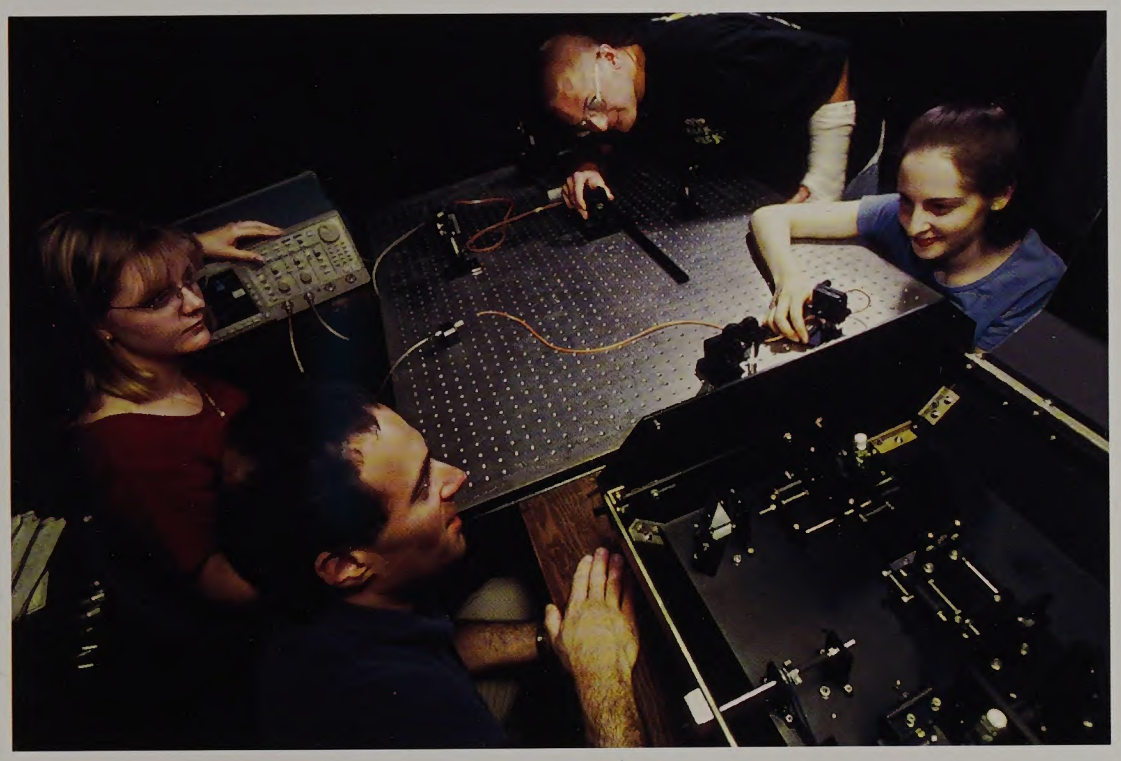
Faculty-Student Research

- **Research projects at NASA-Glenn Research Center, Cleveland, Ohio**
- **A neuroscience project presented at an international conference in Brighton, England**
- **Geologic mapping of the Dempsey Meadows in Idaho**
- **Psychology research published in *Southern Medicine***

We make it

personal

The Centenary experience is "personal." It describes the relationships among professors and students—both inside and outside of the classroom. The Centenary experience forges lifelong friendships. "Personal" resonates at the heart of a Centenary education.



▲ *Dr. Gale Odom, Dean of the Hurley School of Music (left), Ashley Hunter '01 (right) at commencement 2001*

"The personalized attention at Centenary made me feel like I was a part of a family."

—Ashley Hunter '01, Music major, Dallas, Texas

Maximum enrollment in an introductory English class: 20

Classes with fewer than 25 students: 83%

Student-faculty ratio: 12 to 1

Success
follows a Centenary student

"A liberal arts education from Centenary is valuable in many ways. At work, it gives you the intellectual courage to attempt the unfamiliar. It also helps you come to terms with yourself and to understand what success really means."

—John Bookout '50, President (retired), Shell Oil Company

Centenary graduates are in demand. Businesses require employees who can write, think, accept responsibility, and take initiative. Those with a liberal arts education fit the bill—even in highly specialized and technical fields.

By the end of summer each year, almost every May graduate is employed or attending graduate or professional school.

Because so many physicians and scientists completed their undergraduate training at Centenary, Peterson's Guides ranks the College as one of the *Top 200 Colleges for Science*. As an institution that delivers the best education for the dollar, Centenary was named the "Number 1 Best Value" among southern colleges and universities by *U.S. News and World Report,* and among those with the best scholarship opportunities in *Top Colleges for Scholarships*. Many other publications include Centenary among their "best" and "best value" listings.

◀ *President Kenneth L. Schwab chats with students Valerie McDonald of Bossier City, Louisiana, and Drew Sutton of New Iberia, Louisiana. Dr. Schwab invites all new students to join him for lunch during their first semester.*

▲ *San Francisco Opera's Adler Fellow, Twyla Robinson '93 (above, right), conducts a workshop with Centenary voice students. Ms. Robinson, a Centenary voice major, was chosen for the prestigious fellowship from more than 600 applicants.*

Accepted to medical school: 85%

Accepted to law school: 95%

Accepted to veterinary school: 100%

Where do Centenary students go?

• Employed by ABC Sports TV, Shell Oil, Morgan-Keegan, Capital Public Radio, Goldman-Sachs, Chevron Overseas Petroleum, General Electric, Sprint, Peace Corps, Entergy, Federal Reserve, American Express, Ford Motor Company . . .

• Attending graduate schools at Yale, Princeton, Rice, The Sorbonne, Oxford, Pepperdine, Georgetown, Duke Divinity School, Texas A&M, the Universities of Wisconsin and North Carolina . . .

CHI OMEGA

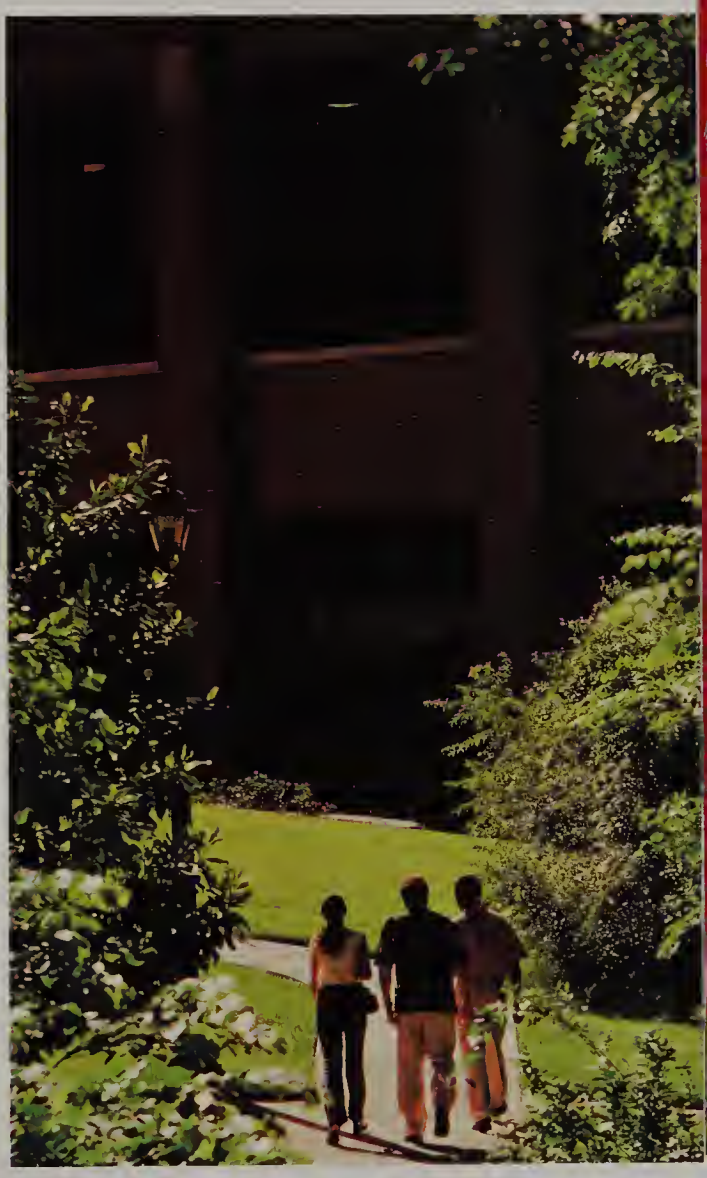
Make lifelong friends

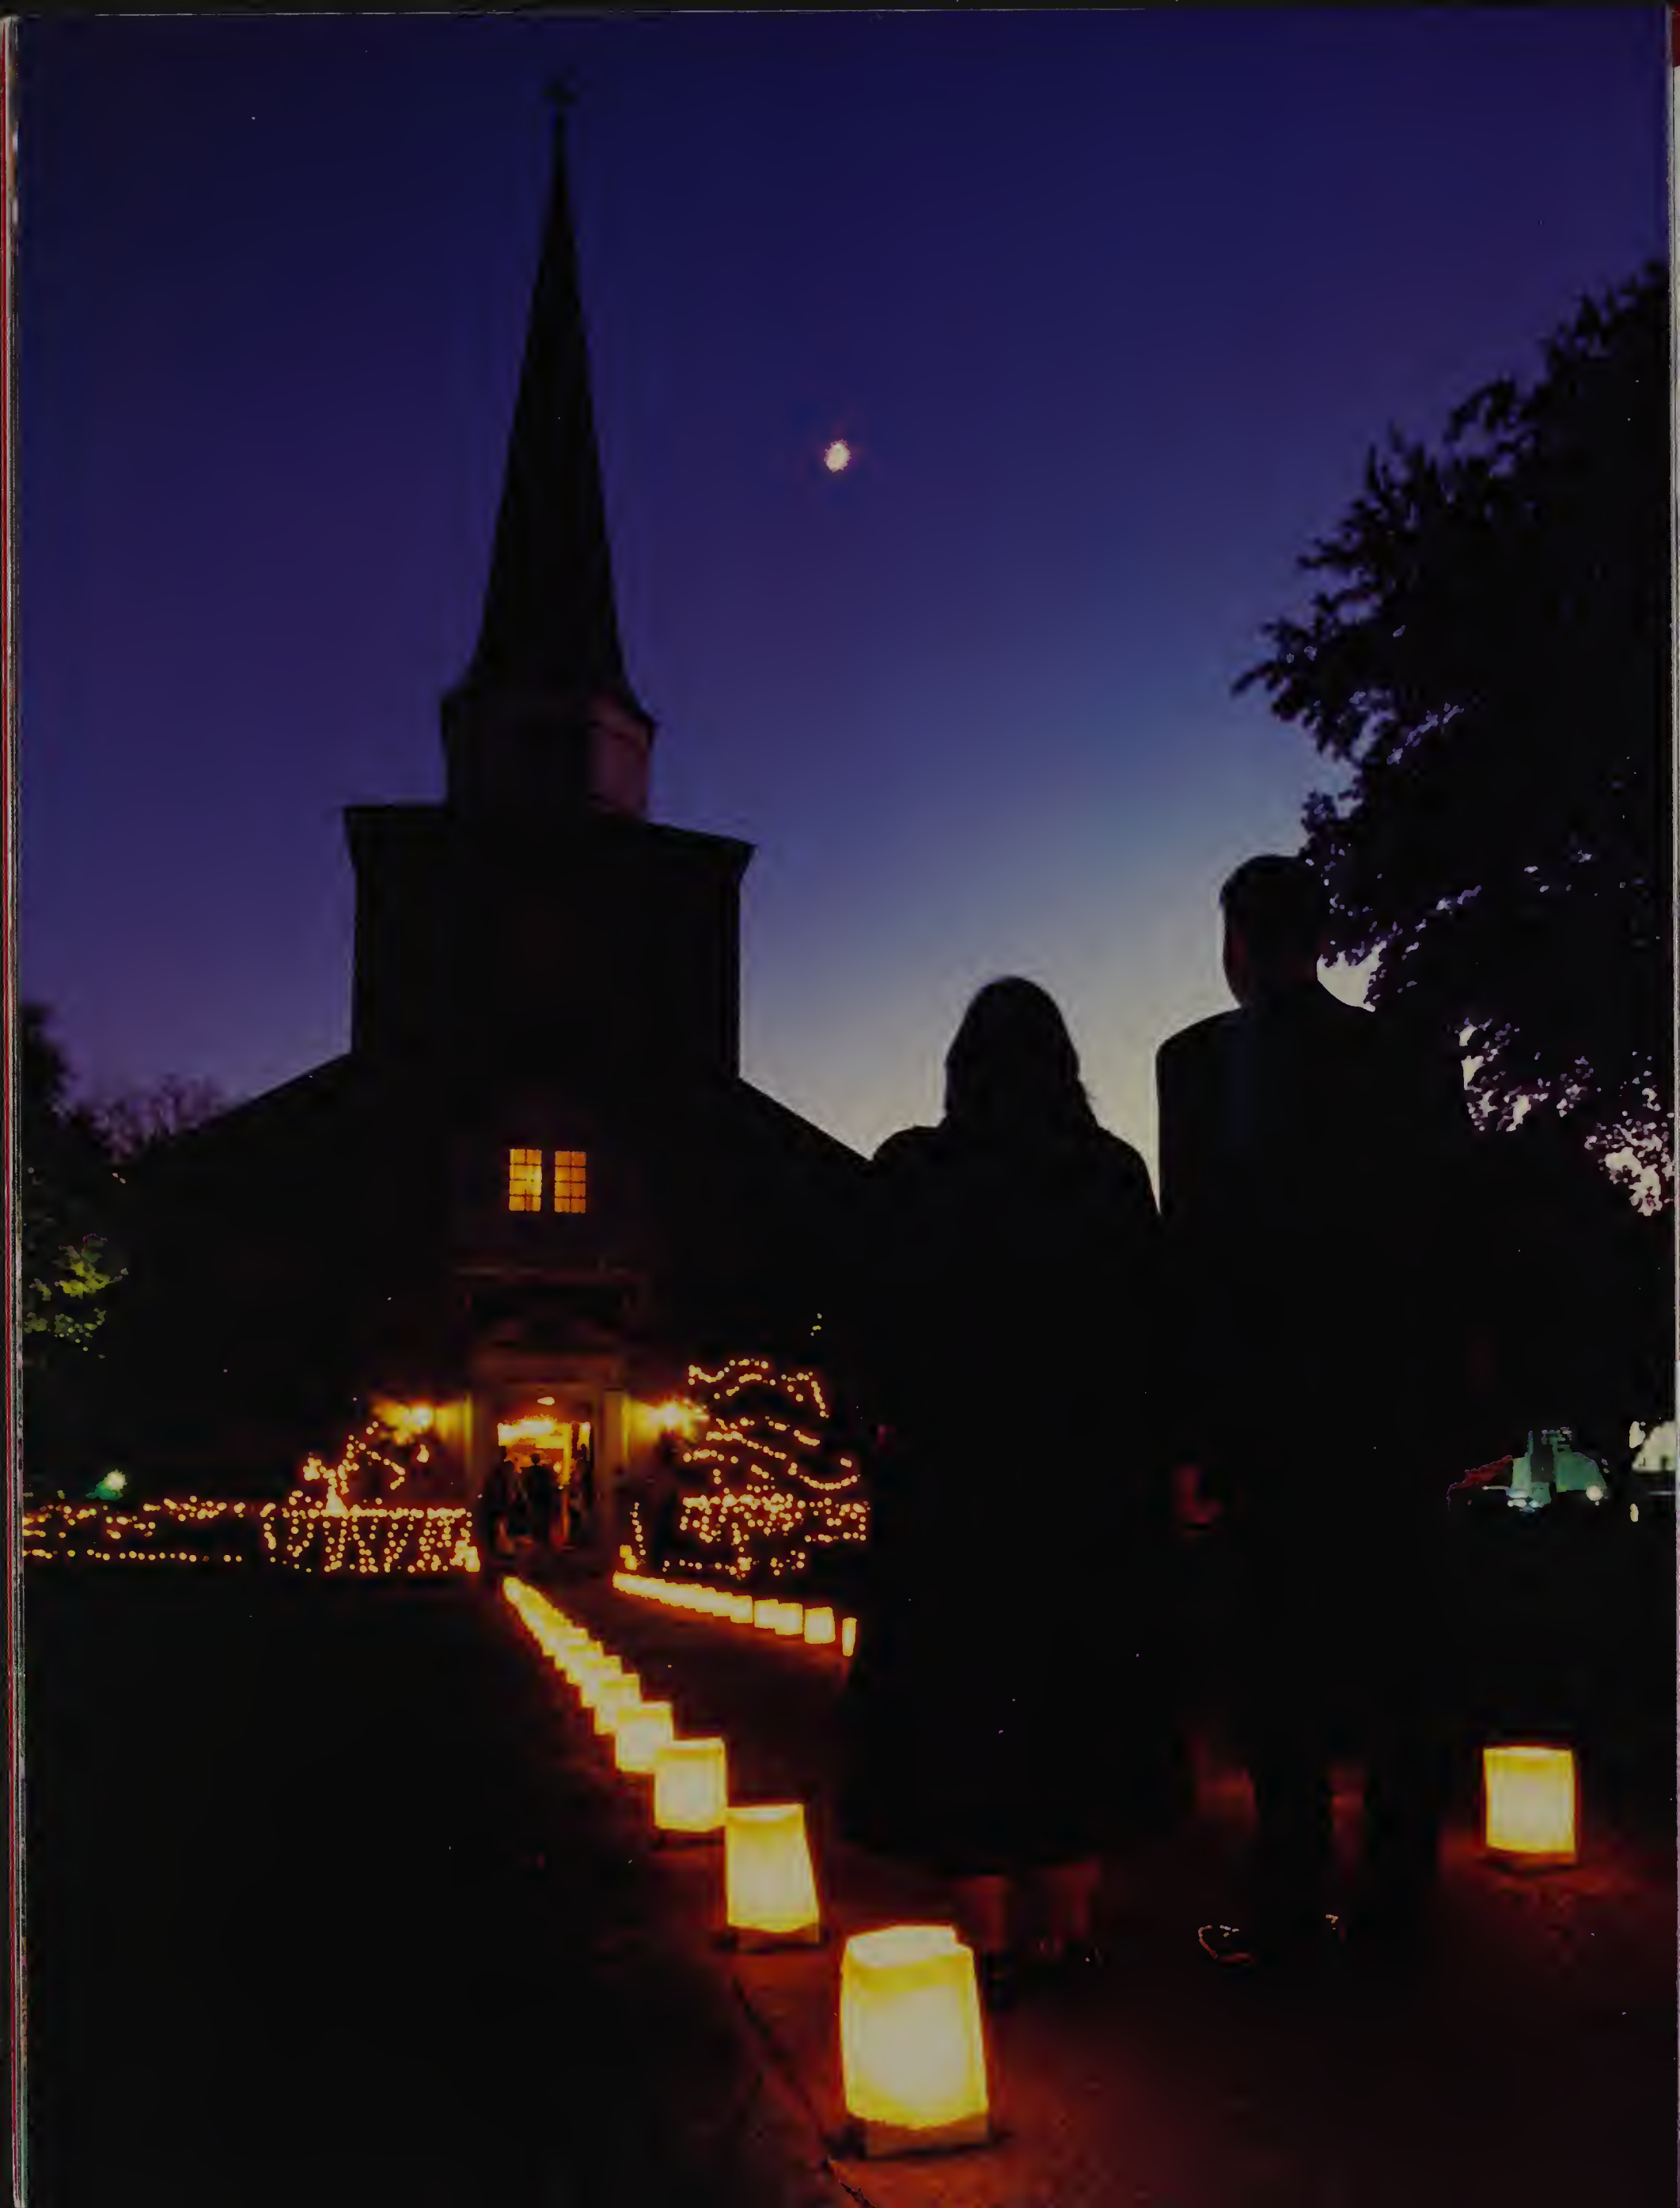
So you did not always agree. You will always remember the times that you were there for each other . . . When you shared some of your deepest fears and your roommate understood . . . How you felt for him when he forgot his lines . . . How excited she was when she made the dean's list for the first time . . . That fantastic trip to Mardi Gras . . . The intramurals game when you scored the winning point . . . The way you knew you would always be friends . . . Or maybe even share your life together. Expect experiences like these at Centenary. Expect to have fun and to make friends for life.

Two 1995 Centenary alumnae were featured on Wheel of Fortune's Best Friends Week in spring 2001. Their friendship began in a mathematics class study group in 1991. They both won automobiles!

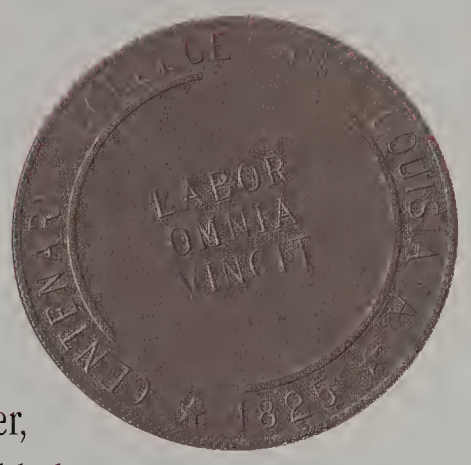
"We really do have a very close relationship with our students and it's a relationship that continues after graduation."

—Dr. Victoria LeFevers, Chair, Department of Health and Exercise Science (below center, pictured with students Warren Harris of Houston, Texas, and Julie Danieles of Barstow, California)





We believe in honor



As our nation's oldest liberal arts college west of the Mississippi River, Centenary has a long and honorable history. Founded in 1825, Centenary is the 43rd oldest of the more than 3,000 colleges and universities in the United States. Since our beginning, we have been a liberal arts institution focused on languages, arts, philosophy, history, literature, and science.

A Centenary education is not merely job training, it is the best preparation for a successful career. We teach students to succeed in material ways and, more importantly, in immaterial ways—not only to do good work, but to be good people.

Liberally educated people learn how to learn. They adapt to change. They initiate change when needed. They lead with integrity, compassion, insight, and courage. Centenary's legacy is the success of its students—past, present, and future.

The Honor Code assumes that honor is revealed, not forced, and that it can be fostered only through the willing and earnest efforts of both faculty and students.

"I like the fact that trust exists here and that doing the right thing is just the thing to do."

—Rob Rubel '01, Business major and Honor Court member, Chicago, Illinois

Affiliation: United Methodist Church

Founded: 1825

Motto: *Labor Omnia Vincit* translates to "Work Conquers All"

Listed in: *The Templeton Guide to Colleges that Encourage Character*

It's about

sportsmanship

The smallest NCAA Division I school, Centenary competes at the highest level of intercollegiate athletics. Our athletes know better than most the imposing task of competing against the odds; but compete they do. In fact, the top scorer in the nation in Division I basketball in 2000-01 was Centenary's Ronnie McCollum '01. In women's soccer, Lara Brown '01 (#17 below) was the nation's leader in points per game and in goals per game. Our student-athletes continue Centenary's tradition of academic excellence. More than two-thirds of our student-athletes achieve over a 3.0 grade point average each semester.

"Deciding to come to Centenary is the best decision I have made in my life to this point. Academics are stressed here and people really care whether you learn. I don't think I would have finished in four years if I had gone somewhere else."

—Ronnie McCollum '01 (pictured left), natian's Na. 1 scarer, NCAA Division I, Health and Exercise Science major, Fayette, Alabama

"In the 1920-30's, Centenary had one of the best football teams in the country . . . After losing a game to Boston College, the team went on a destructive binge. During a pep talk before the next football game, the president told them to go out on the field and act like 'Gentlemen.' The name stuck."

—Kevin Jahnson, Head Men's Basketball Coach, speaking during the College's 175th Anniversary observance in 2000.

Men's intercollegiate teams:

Baseball, Basketball, Cross Country, Golf, Riflery, Soccer, Tennis

Women's intercollegiate teams:

Basketball, Cross Country, Golf, Gymnastics, Riflery, Soccer, Softball, Tennis, Volleyball

Intramural Sports:

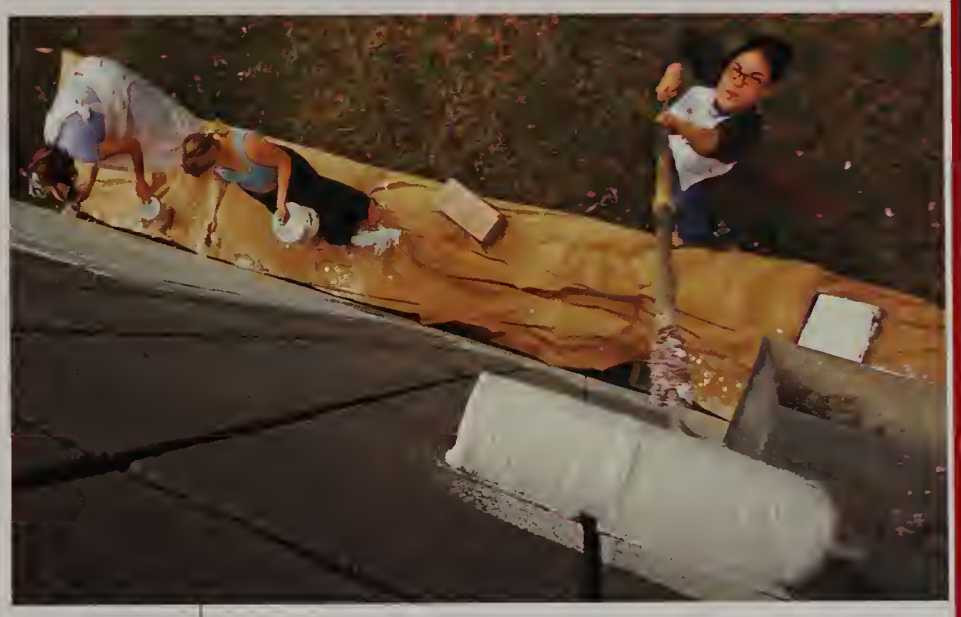
Basketball, Flag Football, Racquetball, Softball, Tennis, Volleyball

Club Sports:

Crew (rowing), Ultimate Frisbee

We serve

Centenary serves its students and they, in turn, serve both themselves and others through the unique Centenary Plan. This three-part plan involves faculty and students in service-learning activities, career exploration, and an intercultural experience.



Additionally, Centenary students initiate and perform many other acts of community service throughout the year. For instance, the neighborhood Easter egg hunt pictured at left served the children and families who live near the college. It was organized, promoted, and run entirely by students.

Senior Evan McClanahan '01, a music major and editor of the student newspaper, volunteered once a week to pick up inner-city youths, take them to his church and teach them group guitar lessons. Others painted walls, built houses for Habitat for Humanity, held car washes and other fundraisers for their favorite charities, and volunteered their time to help out those in need.

▲ *Evan McClanahan '01, Music major, Shreveport, Louisiana*

Some of the service Centenary students have performed:

- **Volunteering at the YWCA, Literacy Volunteers of America, American Red Cross**
- **Traveling to North Carolina to assist with hurricane relief efforts**
- **Teaching adults to read**
- **Building trails in the Kisatchie National Forest**

"Thanks to Centenary's wonderful service-learning program, you've already been taught the value of service to others."

—Farmer First Lady Barbara Bush, (below right) at Commencement 2000

Our greatest strength is

leadership

At Centenary students experience a wide range of ideas—some of them comforting and some of them discomforting. Students wrestle with their beliefs. They acquire knowledge and develop understanding. They accept their responsibilities to others, and they learn to accept the moral consequences of their own acts. They learn that good work is inseparable from sound thinking and generous motives. They grow and become leaders.

At Centenary, you will find many leadership opportunities through diverse activities and programs. You do not have to be a music major to sing in the Choir or a theatre major to act in a production. You do not have to be a communication major to work at the campus radio station or write for the student newspaper. You do not have to be in graduate school to author a publication and present it at a distinguished scholarly conference. These are some of the especially great characteristics about Centenary's size and our environment. The resources are here. All it takes is your willingness to seize the day.

◄ *Nola Sieber '01, Biochemistry major, Paulina, Louisiana (far left), who now attends the University of Alabama Medical School, participates in an internship at LSU Health Sciences Center. She also served on the Student Government Association.*

"During my congressional internship, I talked with an ivy leaguer who couldn't believe I sat on the Board of Trustees. He was trying to get a seat on a committee of their board."

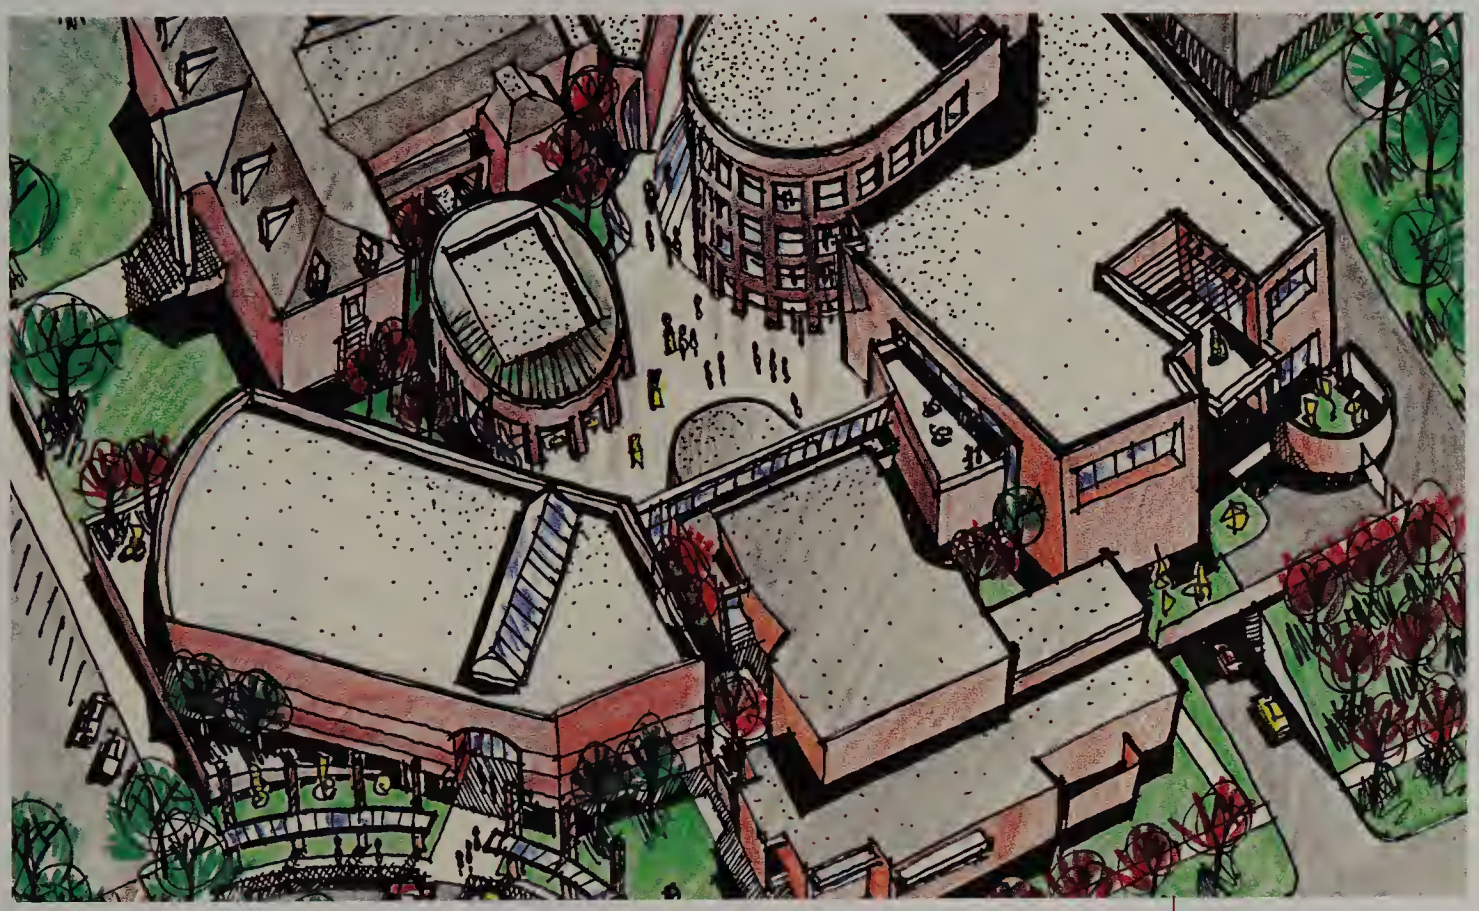
—Dawson Taylor '01, Politicol Science mojor, Student Government president 1999 ond 2000, Texorkono, Texas

▲ *New and former SGA Presidents Mandy Yearwood '02 of El Paso, Texas, and Dawson Taylor '01 of Texarkana, Texas, participate in the arts complex groundbreaking.*

Centenary is a leader in the nation among liberal arts colleges in offering a new minor in Information Technology Studies (ITS).

Creativity

knows no bounds here



▲ *Planned arts complex on northeast corner of campus.*

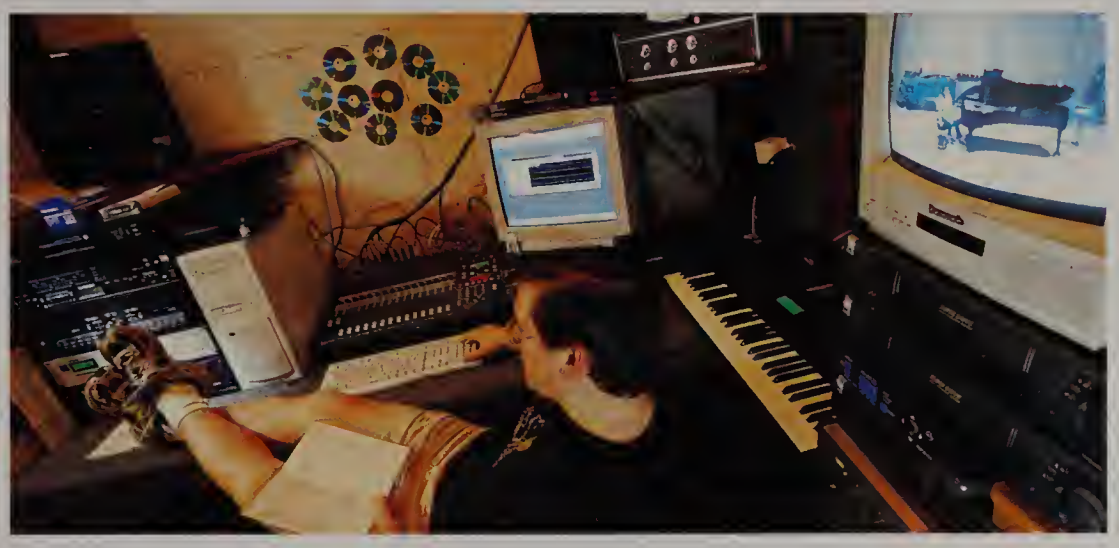
Centenary is a leader in the Ark-La-Tex region in music, theatre, dance, and the fine arts. The campus is home to the Meadows Museum of Art, Turner Art Center, Hurley School of Music, and Marjorie Lyons Playhouse. We host a wide range of productions, music and dance events, and art exhibits.

Exciting new building plans will bring Centenary's substantial arts offerings together in a single place. The first phase of the new arts complex—two new wings on the Hurley School of Music—is under construction. Future plans combine the Marjorie Lyons Playhouse and School of Music with a 1,200-seat performance hall, additional theater and classroom space, a relocated Meadows Museum, and additional parking.

"The liberal arts environment was not only nurturing but it helped me prepare for a career in advertising... Sometimes I wish I could do it all over again just for the fun of it."

—Marshall Taylar '79, Vice President & Assaciate Creative Directar, Yaung & Rubicam, New York, New Yark

Centenary students painted parts of the Shreveport mural that is the nation's largest public artwork.



▲ *Students run state-of-the-art recording studio in the Hurley School of Music.*

There is nothing like firsthand

experience

Discovery science . . . Field experience . . . May Modules . . . Intercultural experiences . . . Student travel . . . Community service . . . Student jobs . . . Internships.

All these and more make for an atmosphere in which we learn by doing. To be certain, there are classroom lectures, but more often than not, there is action involved as well.

Spanish class came alive for first-year student Victoria Kintner when she performed in a Spanish-language play. Bobby Beaird demonstrated the laws of physics as he walked barefoot across broken glass at the Physics and Chemistry Circus. Jennifer Gipson polished her French and impressed a delegation of French senators as she and her classmates recited poems in the language of the distinguished visitors. May Module classes hiked the Grand Canyon, saw molten lava in Hawaii, and visited the theaters of London.

◀ *Centenary Choir performs in Durham Cathedral, England during May 2001 international tour. The Choir recently sang during holiday receptions at The White House for four consecutive years.*

▲ *Bobby Beaird, Physics and Mathematics double major of Shreveport, Louisiana, walks on glass at the annual Physics and Chemistry Circus.*

"The hands-on experience I gained through my public relations internship with the Centenary News Service was the best possible preparation for my current position as a Junior Account Executive at an advertising agency."

—Kori Johnson '00, Communicotion groduate, Floodwood, Minnesota

Recent May Module locations:

Chicago, Costa Rica, Equador, England, Grand Canyon, Hawaii, New Orleans, New York City, Spain . . .

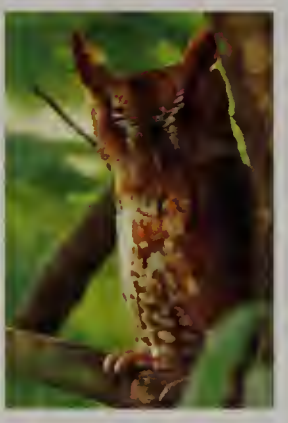
Recent student internships with:

Merrill Lynch, LSU Health Sciences Center, Cooper Clinic, General Motors, U.S. Senate, The White House . . .

A unique campus

atmosphere

A stroll through Centenary's 65-acre suburban campus reveals an oasis of sights and sounds. Georgian-style buildings are surrounded by manicured lawns, gardens, and the academic arboretum. There are opportunities to be alone or to join the crowd for special events, performances, lectures or concerts inside or at our unique outdoor amphitheatre. Experience fast-paced action at the climbing tower, a private picnic for two, or a campus dinner on the grounds. From the equipment in the Fitness Center to the computer labs throughout the campus to numerous spots in between, the Centenary campus offers a variety of venues to meet your personal style and mood.



"This beautiful campus is my world thanks to a set of wise parents."

— Paraphrased fram baby awl, Centenary Arboretum, Spring 2001

Centenary's architecture ranges from classic Georgian-style to 1960's modern to the geodesic Gold Dome. Six gardens, numerous sculptures and an academic arboretum grace our grounds.

A home away from home

Every Centenary residence hall is equipped with a laundry facility, computer laboratory, and vending machines. Each room has cable hook-up, telephone jack, room furniture, and free Internet access via network ports. Each residence hall is governed by a Hall Council composed of elected students. The Hall Councils plan social activities, service projects, and special events.

Application Procedures for Admission and Financial Aid

Students can apply under one of three procedures:

EARLY DECISION: This program is designed for students who have a strong desire to attend Centenary and who consider Centenary their first-choice selection. Students admitted under the Early Decision program agree to enroll at the College and withdraw all applications to other colleges. Students must apply by December 1.

EARLY ACTION: Students must apply to the College by January 15. Notification of admission will begin in February. Those who are admitted will have until May 1 to accept or decline the offer.

REGULAR DECISION: Students must apply by February 15. This is the final **priority** deadline for admission and scholarship consideration. Students will be notified in March and will have until May 1 to accept or decline the offer.

Regardless of the Admissions Plan chosen, all first-year applicants must submit the following:

- $30 non-refundable application fee
- Application and essay
- Official high school transcripts and secondary school report
- SAT or ACT scores (or TOEFL, for international applicants)
- A letter of recommendation from a teacher or counselor
